The Advanced Manufacturing Technician Apprenticeship Program is a five-week certification program designed to certify candidates with the skills necessary to build electronics hardware and develop an exciting career in space operations.

Participants are paid and offered benefits during the five week training program. Candidates who successfully complete the program may be offered full-time employment at Lockheed Martin.

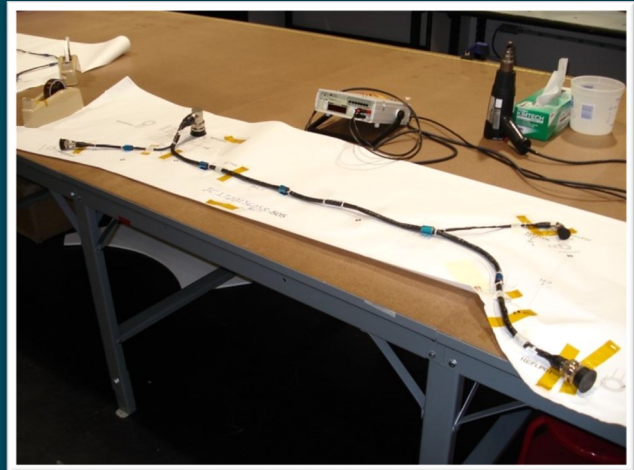

*Summer Class Starts*

*July 15th*

**LOCKHEED MARTIN**

*We never forget who we're working for®*

## No Experience Necessary

The curriculum includes limited solder certification, cable harness training.

Training takes place at the Lockheed Martin Courtland facility and is taught by Lockheed Martin Space instructors.
